Product Environmental Profile

Connected latching relay Drivia with Netatmo

LEGRAND'S ENVIRONMENTAL COMMITMENTS

▪ **Incorporate environmental management into our industrial sites**
Of all Legrand sites worldwide, over 85% are ISO 14001-certified (sites belonging to the Group for more than five years).

▪ **Offer our customers environmentally friendly solutions**
Develop innovative solutions to help our customers design more energy efficient, better managed and more environmentally friendly installations.

▪ **Involve the environment in product design and provide informations in compliance with ISO 14025**
Reduce the environmental impact of products over their whole life cycle.
Provide our customers with all relevant information (composition, consumption, end of life, etc.).

REFERENCE PRODUCT

Function	To enable on/off control of the lighting of a domestic electrical system, for a period of 10 years, both locally and remotely (via the Home + Control app), with a rated switch current of 16 A and a power supply of 100-240 V AC. It integrates advanced functions such as monitoring the energy consumption of the circuits it is connected to and scheduling automatic scenarios (daily, weekly or linked to specific events).
Reference Product	
	FC80RC
	Connected latching relay Drivia with Netatmo - 1P 16AX 230V~ - 1 module

The company reserves the right to change specifications and designs without notice. All illustrations, descriptions, dimensions and weights in the document are for guidance and cannot be held binding on the company.

PRODUCTS CONCERNED

The environmental data is representative of the following products:

FC80RC

Product Environmental Profile

Connected latching relay Drivia with Netatmo

PEP ecopassport®

CONSTITUENT MATERIALS

This Reference Product contains no substances prohibited by the regulations applicable at the time of its introduction to the market.
It respects the restrictions on use of hazardous substances as defined in the RoHS directive 2011/65/EU amended by delegated directive (EU) 2015/863, and its amendment 2017/2102/EU.

Total weight of Reference Product	**0.147 kg** (all packaging included)

Product alone weight : 0.063 kg					
Plastics as % of weight		**Metals as % of weight**		**Other as % of weight**	
Polycarbonate	**16.3 %**			Electronic cards	**25.2 %**
Polyphenylene ether	**0.7 %**				
Polyamide	**0.5 %**				

Packaging (alone) : 0.084 kg					
Polyethylene	**0.6 %**			Wood	**29.3 %**
				Cardboard	**16.9 %**
				Paper	**10.5 %**
Total plastics : 0.027 kg	**18.1 %**	**Total metals : 0.000 kg**	**0.0 %**	**Total others : 0.120 kg**	**81.9 %**

At the date of edition of this document, the content of recycled material(s) is :
- Product alone (excluding packaging): 0 % by mass
- Packaging only: 40 % by mass

MANUFACTURE

This Reference Product comes from sites that have received ISO14001 certification.
The final assembly site is located in Erba, Italy.

DISTRIBUTION

Products are distributed from logistics centres located with a view to optimize transport efficiency. The Reference Product is therefore transported over an average distance of 780 km by road from our warehouse to the local point of distribution into the European market.

Packaging is compliant with European directive 2004/12/EU concerning packaging and packaging waste.

INSTALLATION

For the installation of the product, only standard tools are needed.

USE

Under normal conditions of use, this product requires no servicing, no maintenance or additional products.

END OF LIFE

The product end of life factors are taken into account during the design phase. Dismantling and sorting of components or materials is made as easy as possible with a view to recycling or failing that, another form of reuse.

This product falls within the scope of the WEEE directive (2012/19/EU). Therefore it must be processed through local WEEE recycling/ recovery channels.

▪ **Elements to process specifically:**
In accordance with the requirements of this Directive, the following components must be removed and sent to specific channels for processing which comply with the WEEE Directive 2012/19/EU:

- Electronic cards : 20 g

▪ **Extended producer responsability:**
The sale of this product is subject to a contribution to eco-organisations in each country responsible for managing end of life products in the field of application of the European Waste Electronic and Electrical Equipment Directive.

ENVIRONMENTAL IMPACTS

The evaluation of environmental impacts examines the stages of the Reference Product life cycle: manufacturing, distribution, installation, use and end of life. It is representative of products marketed and used in Europe, in compliance with the local current standards.

The data collected for this PEP are representative of the year 2025.

For each phase, the following modelling elements were taken in account:

System Limit	**Manufacture A1-A3**	Materials and components of the product, all transport for the manufacturing, the packaging and the waste generated by the manufacturing.
	Distribution A4	Transport between the last Group distribution centre and an average delivery point in the sales area.
	Installation A5	The end of life of the packaging.
	Use B1-B7	▪ Product category: PSR-0005-ed3.1-EN-2023 12 08 - 3.15 'Other Equipment' family - active product. ▪ Use scenario : non-continuous operation for 10 years at 20% rated load, for 33% of the time. This modelling duration does not constitute a minimum durability requirement. ▪ Energy model: Electricity Mix_Low voltage_2018_Europe_EU-27
	End of life C1-C4	Use the end-of-life scenario defined by default by PCR-ed4-EN-2021 09 06
D Module		Module D is calculated according to PCR-ed4-EN-2021 09 06 based on the materials recycled and the modelled end-of-life scenario. It expresses the net benefits and burdens beyond the boundaries of the system, and are not to be included in the life cycle totals.
Software and data-base used		EIME V6 and its CODDE-2024-04 database The set of indicators used is Indicators for PEF EF 3.1 (Compliance: PEP ed.4, EN15804+A2) v2.0

Unless otherwise indicated the modelling energetic mix are those integrated in the data modules used from the aformentioned database.
