2 ATTENTION

⚠ • In 2023, we released a new version of CLASSE 100X with several major changes. Therefore, the firmware of the first version is not compatible with the second and vice versa.

⚠ • **How to identify the device version in a simple way:**

1. Press the wheel on the side of the device.
2. If the screen has a **black** background, please use **C100XR_020301.fwz (Home +Security app version)**
3. If the screen has a **purple** background, please use **C100X_010508.fwz (Door entry app version)**
