

INSPYRA®

COLLECTION

A TOUCH THAT TRANSFORMS

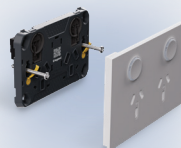

Reimagine your finishing touch. A design element that elevates spaces, transforming a passive choice into an intentional expression of style. Every interaction is personal: a touch that starts and ends the day, a gesture that evokes the mood of a room.

Design-led innovation: a slimline profile and floating rocker create a clean, contemporary look that integrates seamlessly into modern interiors.

Flexible finishes: a curated range of colours and finishes allows greater design choice across different projects and customer needs.

Smart functionality: compatible with the Home + Pro app, INSPYRA supports connected living, with features like USB-C charging and enhanced lighting control.

Installer-friendly design: engineered for efficiency, the range includes features such as pre-mounted screws, aligned terminals, and easy unclipping mechanisms to simplify installation.

Sustainability focus: made with 80% recycled plastic and supported by paper-based packaging, INSPYRA helps reduce environmental impact. More than 60% of the range is manufactured locally in Prestons.

A touch that transforms

A design element that elevates a space, turning a passive choice into an intentional expression of style. Every interaction is personal, a touch that shapes the mood of a room. The **INSPYRA® Collection** transforms environments with intelligent control, where space and light respond effortlessly to every touch.
