

MULTI-OUTLET SOLUTIONS

Innovation, safety & ease at all times

Whether you want to recharge devices or plug in your equipment, our innovative and ingenious multi-outlet solutions will meet your needs efficiently, anywhere in your home or at work!

Redesigned sockets (Legrand Patent)

With the Legrand flush socket, you have a safe and attractive socket which prevents dust from accumulating. The socket recess only moves back when the plug is inserted.

Protection you can rely on

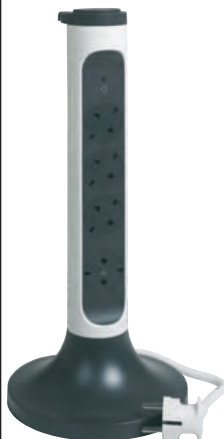

With surge-protected (SPD) or overload-protected (MCB) solutions, you can safely plug in your devices, day in, day out!

Multiple charging solutions

USB Type-A, USB Type-C or wireless: with Legrand solutions, you can choose one of a number of charging methods, for total flexibility! The advantage of a wireless charging station: no need to plug in.

Multifunction multi-outlet extensions (continued)
