		Surface-mounting boxes
1	0 488 75	For ceiling-mounting sensors Cat.Nos 0 488 04/06/07/17 (p. 888-889) and 0 489 18/19 (p. 895)
		Fixing accessory for angled installations
1	0 489 72	For surface-mounting sensor Cat.Nos 0 489 21 (p. 895) / 0 489 33 (p. 888)

Configure

Close Up allows quick, easy and complete adjustment of the parameters of the sensors (time delay, daylight setpoint, sensitivity, etc.). It also enables functional testing.
Close Up is available for free on Google Play and App Store!

GET IT ON Google Play   Download on the App Store

And save time with the copy & paste procedure!

Thanks to Legrand's configuration tool, Close Up App. automatically identifies the sensor and downloads its configuration file to allow a precise trimming of each parameter according to the user's needs. Once the configuration has been done on one sensor, the setting file can be copied and pasted to other sensors within the project or in other ones!
