## Touchless switches 10 AX - for door

2 modules. Allows to control door opening by simply passing the hand in front of the switch. Detection distance adjustable from 10 cm (default setting) to 30 cm . LED indicator light, activated by default (can be switched off). Mechanism depth 25 mm , compatible with all types of flush-mounting boxes. Power supply 12-24-48 V=
Available modes :

- ON/OFF mode/pulse mode (by default mode)
- NC/NO mode (by default mode)

$\qquad$

## Touch switches

For controlling light sources and other functions by touching the switch. Particularly suitable for applications in medical environments. Marking possible with label (supplied) to be put under the cover plate. 2 modules

## Switch with neutral

Equipped with indicator light (LED)
For controlling lamps (maximum loads, see p. 1178): - up to 1000 W for 230 V~ incandescent or halogen - up to 500 VA for ELV halogen with ferromagnetic or electronic transformer

White antimicrobial ${ }^{(1)}$

1: Contains a silver compound to prevent the growth of bacteria on the surface of the plate
