

SLOTTING TOOL, for 50 mm DUCT**Part number: TC1279-118****1. USE / APPLICATION**

The slotting tool is used to make a small slot in the bottom and both sides at the end/s of 50 mm duct. This process is a simple mechanical means of preparing a shortened length of 50 mm duct for connection to another standard part: e.g. elbow, cross connector, tees, 50 mm - 30 mm adapter assembly, duct end or drop-offs, etc. The duct joiner (Part No: TC1279-73) makes a strong and serviceable connection between these items.

2. BENEFITS & FEATURES

- Simple, mechanical shear type slotting tool
- Joiner 50 mm Duct (Part No: TC1279-73) not included
- Purchase as an individual item

3. TECHNICAL ATTRIBUTES
