

**INTRA SUITE ENTRY ASSEMBLY,
300 mm x 100 mm DUCT****Part number: TC1279-277A**

Also available without the lid, as straight duct (Part No: TC1279-277)

1. USE / APPLICATION

The entry suite is basically a 220 mm vertical drop off point in a 300 mm horizontal duct system. This is usually installed where a large number of optical fibre cords are to be dropped off below: eg. in optical fibre distribution frames. It provides free flow for the ongoing fibres and strain relief for those exiting down the 220 mm vertical section. There are two 300 mm horizontal outlets, which use slotless joiners (Part No: TC1279-287A) and a 220 mm vertical outlet that uses a slotless joiner (Part No: TC1279-250A). Joiners: available separately.

2. BENEFITS & FEATURES

- Includes cover (Part No: TC 1279-278)
- Clips straight into joiner
- Ribs included for extra strength
- Tough, fire retardant material
- Joiners: (Part No's: TC1279-250A & TC1279-287A), available separately
- Also available without cover (Part No: TC1279-277)
- Purchase by the unit

3. TECHNICAL ATTRIBUTES

Dimensions	370 mm (W) x 150 mm (H) x 312 mm (D)
Weight	1175 grams [all up]; Lid = 502 grams
Materials	Fire retardant plastic, Halogen free, UL94-VO rated
