## IK 10 high resistance

10 AX controls - 6 A push-buttons

0778 11/21/41

0778 12/14/44

0778 13/43

## 1. USE

Soliroc switches and push-buttons are lighting control mechanisms which can house locator devices (lamps, etc.) if needed.
The new Soliroc ${ }^{T M}$ IK10 programme guarantees robust impact resistance in environments that are hazardous or unsupervised, whether indoors or outdoors (warehouses, public buildings, motorway services, offices, shops, schools, prisons, etc.).

## The $\mathbf{5}$ commitments of the SOLIROC range:

Security: The IK10 rating (20 joule impact force) guarantees optimal resistance and protection against vandalism. It is impossible to tear off a SOLIROC switch due to the use of four zamak sealing plugs on the plate (removable only by drilling.
Reliability: The IP55 rating guarantees a long useful lifetime whether indoors or outdoors. All external parts are made of zamak for optimal robustness.
Practicality:The plate is deliberately thin, thereby limiting the amount of possible grip and reducing the risk of attempted tear-off. There is minimal space between parts, guaranteed by the IP5X rating (impenetrable by solid bodies greater than 1 mm in diameter and protected against dust.
Installation: Depens on the nature of the building. We recommend using 50 mm -deep multi-material or concrete BATIBOX mounting boxes ( 40 mm accepted).
To guarantee the best tear-off resistance:

- Attach the SOLIROC plates using 4 standard screws ( 4 mm diameter, 40 mm length).
- Select wall plugs according to the nature of the walls. For concrete walls, we recommend expanding nylon wall plugs ( 6 mm diameter, useful length 40 mm ).
Quality control: factory inspection according to ISO 9001/9002 procedures.

2. RANGE

## 10 AX TWO-WAY SWITCHES

| Two-way switch | 077811 |
| :--- | :---: |
| Intermediate switch 077821 <br> Illuminated two-way switch with indicator light <br> supplied with lamp Cat. No 067686 077812 <br> Two-way switch with indicator light <br> supplied with lamp Cat. No 0 676 88 077814 <br> Two-way switch marking space 077813 |  |

## 10 AX controls - 6 A push-buttons

## 4. CONNECTION

Automatic terminals
Terminal capacity: $2 \times 2.5 \mathrm{~mm}^{2}$
Stripping length: 13 mm

## 5. TECHNICAL CHARACTERISTICS

- 5.1 Mechanical characteristics

Impact resistance: IK 10
Penetration against solid/bodies and liquids: IP 55

## - 5.2 Material characteristics

Mechanism: PC grey
Rocker: Zamak
Sub-plate: PC
Surface treatment: copper plating + acid copper plating + matt nickel plating + chrome plating approx 0.1 mm in thickness.
Colour: mat chrome grey
SEBS sealing membrane
Self-extinguishing:
$850^{\circ} \mathrm{C} / 30 \mathrm{~s}$ for insulating components holding live parts in place.
$650^{\circ} \mathrm{C} / 30 \mathrm{~s}$ for other insulating components.

## - 5.3 Electrical characteristics

Voltage: 250 V ~
Current: 10 AX for Cat. No. 0778 11/12/13/14/21/22
6 A for Cat. No. 0778 41/42/43/44
Max. power for self-ballasted lamps: 100 W for 10 AX
Frequency: $50 / 60 \mathrm{~Hz}$

- 5.4 Climate characteristics

Storage temperature: $-10^{\circ} \mathrm{C}$ to $+70^{\circ} \mathrm{C}$
Usage temperature: $-5^{\circ} \mathrm{C}$ to $+40^{\circ} \mathrm{C}$

## 6. CLEANING

Bound to cleaning agents without damage agents as: hexane, alcohol burning, agent for the window, washing diluted bleach 10\%, graffiti remover, acetone, white spirit, gasoline F.

Caution: Always test before using other special cleaning products.

## 7. ACCESSORIES

## FOAM SEALS

to correct wall irregularity

| $\square$ | For plate 1 gang | 077885 |
| :--- | :--- | :--- |
| $\square$ | For plate 2 gang | 077886 |
|  | For plate 3 gang | 077887 |
|  |  |  |

## 8. STANDARDS AND APPROVALS

Compliant with installation and manufacturing standards. See e.catalogue.
