## 1. USE

Shuttered 2P+E Flush socket outlets.

Easy to clean and prevent accumulation of dirt.

Flush or surface-mounting.

For installation in flush-mounting box 40 mm deep (minimum recommended).

#### **Antimicrobial\* socket outlets:**

Products are made of silver-ion based antimicrobial\* material.

This technology eliminates bacteria, fungi and viruses without creating any immunisation or resistance effects (physical, rather than chemical destruction)

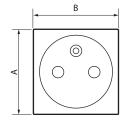

Particularly suitable for healthcare establishments (hospitals, clinics, nursing homes, laboratories, waiting rooms, etc) and more generally for areas subject to hygiene restrictions (industrial, shared and restaurant kitchens, waste, etc).

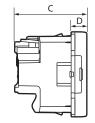

These products offer an additional way of ensuring the non-proliferation of bacteria, fungi and viruses without interfering with cleaning protocols.
