1. KEY FEATURES

NX1 PDUs provide electric power for IT equipment in 19" enclosures.

They have been designed with specific features for Data Center applications.

Each C13 and C19 outlets are numbered and equipped with a cord locking (100 Newton retention force).

The circuits of the 32A PDUs are equipped with hydraulic magnetic circuit protection. Hydraulic magnetic circuit breakers are not affected by ambient temperature.

High ambient temperature rating: 60°C

Easy installation thanks to 330° rotating cable input and button-type brackets

9. PACKAGING

	Individual packaging	Bulk packaging*
Cat. Ref	NX1-B3101	Configuré à la demande

NX1 PDUs can be delivered in two different types of packaging

- Individual packaging : 1 PDU in 1 pack
- Bulk packaging : a set of 4 PDUs in 1 pack

Individual packaging

Bulk packaging

Bulk packaging aims to facilitate and lighten the management of products, but also to reduce the environmental impact.

- Unpack and deploy PDUs faster
- Save time and money for waste treatment: bulk packaging saves more than 50% cardboard per PDU compared to individual packaging.
- Contribute to reducing carbon emission : bulk packaging makes it possible to ship up to 86% more units on a single pallet compared to individual packaging (56 PDUs versus 30)

* The bulk packaging option is open to PDUs between 1126mm and 1765mm in length.

Single-use plastic is eliminated in both individual and bulk packaging.
