Safety instructions:

This product should be installed according to the installation regulations and preferably by a qualified electrician. Incorrect installation and/or use can entail risk of electric shock or fire. Before carrying out the installation, read the instructions and take account of the product's specific mounting location. Do not open, disassemble, alter or modify the device unless specified otherwise in the instructions. All **Legrand** products must be exclusively opened and repaired by personnel trained and approved by **Legrand**. Any unauthorised opening or repair completely cancels all liabilities and the rights to replacement and guarantees. Use only **Legrand** brand accessories.

Before you start: wiring precautions

To control a power outlet, only use the products:

Connected power outlet

AND

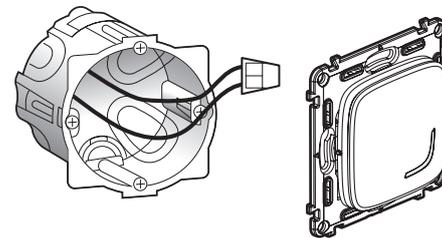

Wireless switches for all control points (not included in this pack)

Do not use: a connected switch (with dimmer option) to control a connected power outlet or a traditional power outlet.

If you are replacing a power outlet controlled by a switch:

Tip if you are replacing an old flush-mounted switch (replaced with a wireless switch)

Use a **connector** to connect the two wires.

The head protection must be 16 A

1 Necessary safety precautions

1

OFF

Switch off the power at the main circuit breaker

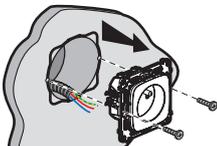

2

Make sure that the power is off before continuing with the installation.

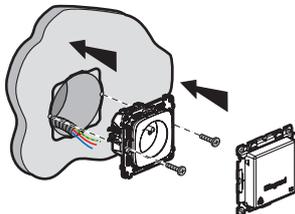

2 Install the connected power outlet

1

Remove the existing power outlet

3

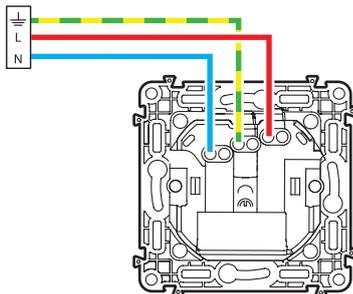

2
