

Composition

This product allows you to start a connected installation in your home.

	U	P	F
-5°C +45°C	100-240V~ 50/60Hz	consumption 2W MAX	 2,4-2,4835Ghz <100 mW

Installation step by step

- ① Choose a location for the Gateway module, in the electrical cabinet:

- 1 If an Internet box is present in the home, check with a smartphone that the Wi-Fi signal strength is sufficient at the chosen location.
- 2 If an Internet box is not yet present, choose a location near a fiber or telephone outlet that will be used for the Internet box.

Safety instructions

This product should be installed in compliance with installation rules, preferably by a qualified electrician. Incorrect installation and/or incorrect use can lead to risk of electric shock or fire. Before carrying out the installation, read the instructions and take account of the product's specific mounting location. Do not open up, dismantle, alter or modify the device except where specifically required to do so by the instructions. All **Legrand** products must be opened and repaired exclusively by personnel trained and approved by **Legrand**. Any unauthorised opening or repair completely cancels all liabilities and the rights to replacement and guarantees. Use only **Legrand** brand accessories.

- ② Install the **Gateway module** in the electrical cabinet

Turn OFF the power at general circuit breaker

Cable the Gateway module under a circuit breaker

- ③ Complete your connected installation with additional products (not included in this pack, non-exhaustive list of products):

 Modules for the electrical panel

 Sockets, switches and micromodules

 Accessories and wireless push-buttons

Wire wired products using the individual instructions provided in the packaging of each of them.

The Legrand ecosystem is growing regularly, do not hesitate to consult the website **legrand.com** to keep you informed.

4 Configure the connected installation

1

Turn OFF the power at **general circuit breaker**

OFF

2

Turn ON the power at the **general circuit breaker*** once the installation completed and controlled**

ON

* In order to restart all connected products at the same time.

** After wiring the installation, refit the front plate so that no active live part is accessible.

5 Start configuring the installed products

For a quick setup without Internet access:

Use the **Home + Pro** app.

Download the Home + Pro app and follow the instructions to set up your installation WITHOUT Internet access.

For installation with Internet access:

Use the **Home + Control** app.

Download the Home + Control app and follow the instructions to access more settings: configure scenarios, action schedules, and automations.

You're ready to control your installation and can customize your scenarios via the **Home + Control** app or your voice assistant.

UE SIMPLIFIED DECLARATION OF CONFORMITY

The undersigned,

Legrand

declares that the radio equipment listed on this instruction sheet are compliant to the directive 2014/53/UE. The full text of the UE declaration of conformity is available at the following website:
